☀ CAB's Annual Picnic ☀

CAB's annual company picnic was held at Castle Park on June 15th this year. Employees enjoyed lunch, games, prizes, and the opportunity to socialize with co-workers and their families. The day started off with games including a sack race, water balloon toss, relay races, and a hula hooping competition. Sabrina Rochon won the hula hoop contest for the second year in a row! Antonio Hernandez and Johnny Arballo won the water balloon toss, Isaac Martinez was the individual sack race winner, and Dante Bruton and his son won the sack race relay. Thank you to everyone who participated in the games. In addition to the gift cards won during games, 13 gift cards were raffled off. Congratulations to all the raffle winners! Having CAB employees and their families get together for some fun in the sun was great! The children, and several adults, enjoyed having their faces painted. Balloon animals, swords, flowers, and hats were made to order by a balloon artist. Children received goodie bags filled with bubble guns, candy, and other fun stuff. After the festivities in the picnic area, everyone ventured out into the park. Some played miniature golf while others enjoyed the rides and games. The train that runs through the park was a great ride filled with sights and familiar faces. Many CAB employees and their children had a blast in the Buccaneer Cove splashing around and braving the water slides. CAB's annual picnic was fun for employees and their family members. We look forward to seeing everyone again next year!

Editor's Comments, Two Days of commemoration and national pride

Well summer officially kicks off in June and there are 3 months ahead of long warm days, trips to the beach, and if you have kids, trips to assorted amusement parks. The Fourth of July is just around the corner and with it comes get togethers, picnics, barbeques and awesome fireworks displays. As this is the June July issue, there are two dates being commemorated that are an integral part of our history and heritage—both were not only major turning points for this country but the world as well. One established freedom and liberty as our birthright, the other allowed it to flourish for much of the world.

The first is commemorated on June 6. **This is the 75th anniversary of D-Day.** The massive allied armada that signaled the beginning of the end of the Nazi regime in Europe. June 6 was the day the United States with its allies landed on the shores of Normandy, France. Nazi Germany controlled all of Europe. Great Britain, an Island Country, had been able to withstand the might of the merciless and constant German air attacks and bombings during the Battle of Britain, and fought valiantly. If Great Britain had lost, the last light of freedom in Europe would have been extinguished. On June 6, 1944 General Eisenhower, the Supreme Commander of the allied forces, oversaw a massive invasion force that left the shores of Great Britain and gained a foothold in Nazi controlled France. The invasion took place at five beaches on the coast of Normandy, with the greatest resistance and losses experienced by the American Forces at Omaha Beach. 160,000 troops crossed the English channel in bad weather and by the end of the day had established a foothold in Europe. The courage and sacrifice of the Americans and their allies not only was critical in the final winning of the bloodiest war in human history, it changed the world for decades to come.

The second is commemorated on July 4, what is named Independence Day, the day that commemorates the **signing of the Declaration of Independence.** The founding principles of this great nation were eloquently stated in this document; “We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.” The Revolutionary War would last for eight long years but the fledgling America was able to arise victorious against overwhelming odds taking on the then greatest military in the world. The sacrifice and bravery of these original patriots as they sought liberty is something we should commemorate and remember.

Abraham Lincoln believed, what America had achieved was unique and special in the history of the world. No power in the world could by force take from us what originated in the Declaration of Independence. If we, as Americans, lose liberty and freedom, we must do it to ourselves. In Lincoln's Lyceum address he eloquently stated this.

“Shall we expect some transatlantic military giant, to step the Ocean, and crush us at a blow? Never!--All the armies of Europe, Asia and Africa combined, with all the treasure of the earth (our own excepted) in their military chest; with a Buonaparte for a commander, could not by force, take a drink from the Ohio [river], or make a track on the Blue Ridge, in a trial of a thousand years. At what point then is the approach of danger to be expected? I answer, if it ever reach us, it must spring up amongst us. It cannot come from abroad. If destruction be our lot, we must ourselves be its author and finisher. **As a nation of freemen, we must live through all time, or die by suicide.**”

We have a great and unique country, but it requires dedication from all to make it work. Benjamin Franklin was asked after the Constitutional Convention that gave us the law of the land; “Well Doctor what have we got?” To which Benjamin Franklin replied, **“A republic, if you can keep it.” Happy Fourth of July!**

Departmental Overview

Maintenance

The maintenance department is responsible for ensuring the consistent and efficient running of CAB's equipment, in particular its three High Speed A3 lines. For the company to be profitable and so sustainable year after year, it is essential that its production lines run constantly and consistently.

The Maintenance Department is responsible for handling breakdowns, line issues, changeovers and preventive maintenance on a timely basis, while coordinating these activities with all other operational departments. The mechanics use various tools and systems to accomplish these tasks. They use **TPMS or the Tetra Pak Maintenance System**. This system generates check lists that are used in servicing CAB's lines. Parts are ordered and maintained through an additional system, **PIMS (Tetra Pak Inventory Management System)**. The Maintenance department uses only genuine parts and never installs aftermarket parts on the lines to maintain line efficiency, compliance and to extend the useful lives of CAB's lines while ensuring consistency in line performance.

The CAB Maintenance team consists of seven mechanics. Our lead mechanic, **Robert Bombard**, has been with CAB since September 2009. **Johnny Arballo** and **Jack Sellers** have been in the maintenance department since 2018. CAB recently hired **Nathan Huitron**, **Miguel Alvarado**, **Robert Brooks** and **Bob Waggott** to join the maintenance team. **Hughie Shelton** is responsible for all facility maintenance. **Samir Elremawy** is responsible for CAB procurement and ensures the maintenance spare parts inventory is maintained at appropriate levels. **Ernesto Rocha** works with Samir as our Inventory Control Clerk.

In every production facility - and CAB is no exception - the maintenance department is one of its main pillars for success. The Maintenance department is responsible for **Up time** and **Line efficiency** while maintaining its backbone facility utilities.

Announcements

In this issue, The CAB Connection highlighted graduations. We asked employees to please bring a senior or graduation picture of their son/daughter or any family member. Employees who brought a picture were entered in a raffle.

The raffle took place on 7/1 and the winner of the \$50 Gift Card is

Matthew Ibewiro

Stay tuned for more information on the Christmas Party

Goodbye

Marla

New Hires

Name: Jackie Amaya
Title: Office Coordinator
Hobbies: Enjoys spending time with her family, watching classic cartoons, and traveling up the central coast. Likes to shop, listen to music, craft, and play classic video games. Favorite food is spaghetti. Has a chihuahua named Pitsi.

Name: Nathan Huitron
Title: Mechanic

Hobbies: Enjoys playing sports, Football and Basketball. Favorite teams are the NY Giants and the Lakers. Likes to play video games. Customizes shoes. Dream car is a corvette.

Name: Miguel Alvarado
Title: Mechanic

Hobbies: Likes to work on computers, playing video games, and going to the beach.

Name: Robert Brooks
Title: Mechanic

Hobbies: Enjoys horse back riding, cooking, target shooting, and spending time with his grandchildren. He is very involved in his church. Also likes to teach people about firearm safety.

Name: Bob Waggott
Title: Mechanic

Hobbies: Originally from Michigan and moved all his family to California in 2006. Enjoys spending time with his grandkids, karaoke, shooting pool, ham radio, and watching baseball. His favorite team is the Atlanta Braves.
